Revised 9/6/2026

RIVERSIDE COUNTY TRACK - 2027

This is the 30th attempt to recognize the many fine track and field performances by Riverside County High School track and field athletes. This publication is by no means complete. People reading this work are encouraged to contact the author regarding errors or omissions. The school record section lists only those marks that are first listed on the all-time list.

The first edition was published prior to the 1990 track & field season. The original research was assisted by Jack Gaffney of Canyon Springs HS, and Doug Speck (Arcadia HS). Thanks also to Jim Roldan of EPI Sports and Mark Gardner (Corona HS).

THE STATS

Abbreviations

+-mark converted from yards to meters.

c-mark converted from hand time to equivalent auto time.

w- wind aided mark.

y-original mark attained in a race run in yards

- fully auto timed races have no abbreviation and are noted to one hundred of a seond. -any hand time recorded to one hundred of a second has been rounded up to the next full tenth of a second.

'-mark made enroute to a longer distance.

'-after name indicated foreign exchange student (if known).

* -before athletes name indicates junior year.

* *-before athletes name indicates sophomore year.

***-before athletes name indicates freshman year.

PERFORMANCE RANKING

For the purpose of ranking athletes and their performance, hand times have been converted to

equivalent auto times and yard performances to metric. The *Track & Field News* policy of converting

has been adopted. By using a multiplier, accurate percentage differentials are attained as the time gets longer.

CONVERSIONS

Hand times have been converted by adding 0.24 seconds for races less than one lap, and 0.14 for one lap races. Races of more than one lap have no conversion from hand to auto timing. The yard time was then multiplied by.9942 to get the metric equivalent. Common ratio races follow this formula.

100 yards/ 100 meters and 110 meters/ 120 yard hurdle events are not common ratio events.

BOYS COUNTY RECORDS

Running records are listed at metric distances. No attempt has been made, for record purposes, to convert marks from yards to metric. The longer yard performance is noted and recognized as the metric record. An equivalent metric performance needs to surpass the yard performance to become a record. Most record performances today are made at metric meets, thus the use of metric distances.

100 yd	9.4	John James (Ferris)	1964
